

CREATE IBM WATSON IOT PLATFORM AND DEVICE

The image shows two screenshots of the IBM Watson IoT Platform interface.

Top Screenshot: IBM Watson IoT Platform Dashboard

The dashboard features a dark blue background with a central graphic titled "Cars" that illustrates data collection and value creation. The text "Collect data from" and "and make value from it" is visible. A "Learn More" link is at the bottom. The top navigation bar includes the IBM logo and several tabs: "Service Details - IBM Cloud", "IBM Watson IoT Platform", and "IBM Watson IoT Platform". The user profile in the top right corner shows "op3j5i (ID op3j5i) Bluemix Free" and a "Sign out" button.

Bottom Screenshot: IBM Watson IoT Platform - Browse Devices

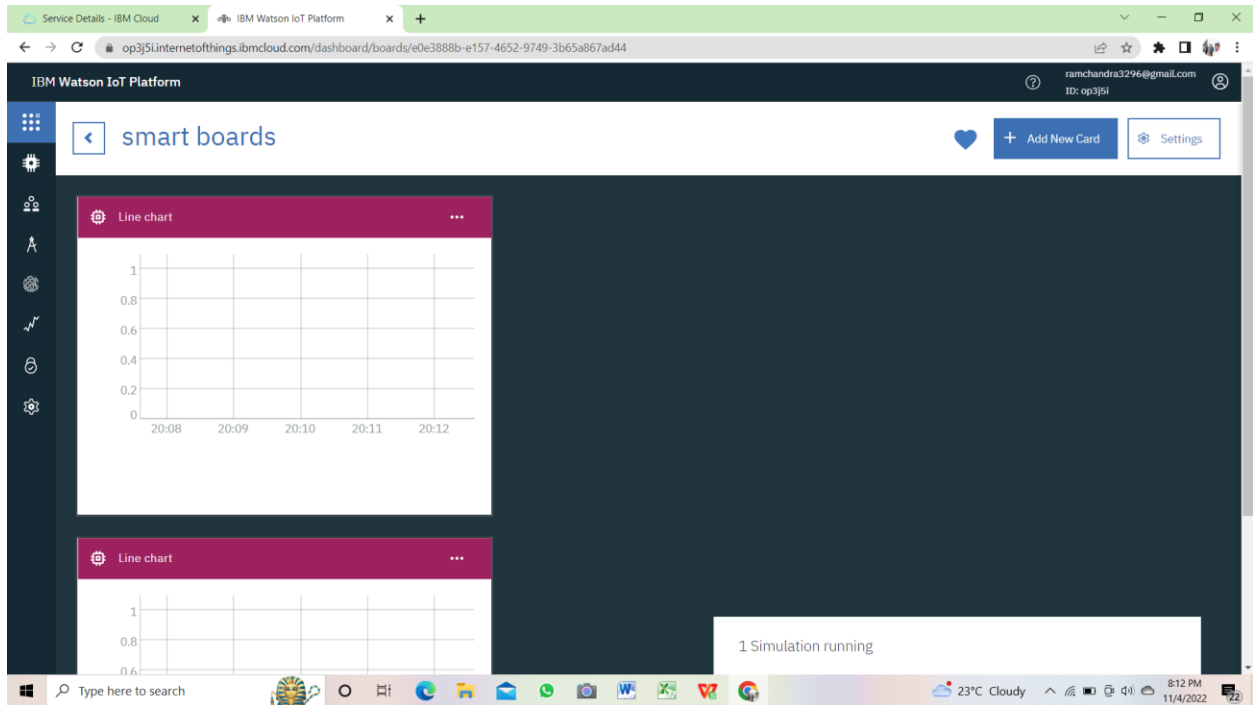

The "Browse Devices" page is shown with a sidebar on the left containing various icons. The main content area has a "Browse" tab selected, with "Action", "Device Types", and "Interfaces" as sub-tabs. A "Add Device" button is in the top right. Below the tabs, there's a section titled "Browse Devices" with "All Devices" and "Diagnose" buttons. A message states: "This table shows a summary of all devices that have been added. It can be filtered, organized, and searched on using different criteria. To get started, you can add devices by using the Add Device button, or by using API."

A search bar "Search by Device ID" is present. To the right of the table is a "Device Simulator" toggle switch, which is currently turned on. The table below lists device information:

<input type="checkbox"/>	Device ID	Status	Device Type	Class ID	Date Added	Descriptive Location
> <input type="checkbox"/>	8252219018	Disconnected	raspberrypi	Device	9 Oct 2022 00:38	

At the bottom of the table, it says "Items per page 50 | 1-1 of 1 item". On the right, it shows "1 of 1 page" with navigation arrows.

At the bottom of the page, a status bar indicates "1 Simulation running".
